## About Sky Lakes

Sky Lakes Medical Center is a not-for-profit, community-owned, internationally accredited acute-care teaching hospital dedicated to the people it serves.

Sky Lakes serves more than 80,000 people in Klamath and Lake counties in south-central Oregon and Modoc and Siskiyou counties in northern California.

The Sky Lakes family includes the Center for Total Joint Care, which was designated as a Center for Advanced Recovery (CARE) for Joint Replacements by Stryker Performance Solutions in 2013. This coveted honor has only been awarded to five hospitals in the nation, and Sky Lakes is the only hospital on the West Coast to reach this level of excellence.
